Site Plan Template

Please attach site plan or use template below. Please draw where your structure will be placed. Include the distance from adjacent property lines. Property line setbacks are the distance from the structure to the property line. Setbacks vary depending on the type of structure.

The diagram is a site plan template for a property. It features a large rectangular area representing the property, bounded by four lines: a top line labeled "Rear Property line", a bottom line labeled "Front property line" (with a red arrow pointing to it and a note "typically starts 12-15 feet from curb line"), and two vertical lines labeled "Side property line". Inside the property area, there is a rectangular box labeled "House". To the right of the house is a vertical line labeled "Driveway". Below the house is a horizontal line labeled "Curb line". Four setback measurement boxes are provided: one at the top center for the distance to the rear property line, one on the left side for the distance to the left side property line, one on the right side for the distance to the right side property line, and one at the bottom left for the distance to the front property line. Each box contains the text "Distance from the structure to [property line]" followed by a blank line and "ft.". A "STREET NAME:" label is at the bottom with a blank line for the street name.

Rear Property line

Distance from the structure to rear property line _____ ft.

Side property line

_____ ft.

Side property line

Distance from the structure to side property line _____ ft.

House

Driveway

_____ ft.

Front property line (typically starts 12-15 feet from curb line)

Curb line

STREET NAME: _____
